Export control classification

DATE OF MARKING (YYYY-MM-DD):	2025-02-18	BADGE (XX######):	*PW51027*

[X] Check this box if the document contains **no technical data**. OR Summarize the export classification of all slides in this presentation as instructed below.

Classifications must always be provided for U.S. and Outside U.S. boxes.

When the person completing the grid is physically located outside of the U.S., the local classifications must also be provided.

CLASSIFICATION		
LOCATION	U.S. REGULATION	
	EAR	ITAR
U.S.	P-ECCN	P-USML
OUTSIDE U.S.	ECCN	USML
	LOCAL REGULATION	
CANADA	EIPA (ECL)	DPA (CG)
		Document may be DPA controlled if EIPA value starts with "2" or US ITAR box contains any value other than "NSR".

For instructions and examples on how to fill in this slide, click here
When you are located outside of Canada, modify the Local Regulation section accordingly

RLPM

Why RLPM?

It starts with program execution. Challenges across RTX prompted us to look at all the BU frameworks and create a **single**, **best** in **class approach**.

Lessons learned
+
Disciplined approach
+
Clear-decision making
+
Accountability

=

Reduction in errors

Saved time

Lower total costs

Mitigated risks

Consistent, high-quality products.

RLPM advances our objective be the best aerospace & defense company in the world by leveraging our scale to win more business and bring innovative, integrated solutions to market

RLPM: RTX Life Program Management

P&W PROPRIETARY- THIS PAGE DOES NOT CONTAIN ANY EXPORT REGULATED TECHNICAL DATA

RLPM P&WC Incorporation

BLUF

RLPM Implementation progressing to April 1 L1 document readiness

P&WC implementation; Compliance to RLPM through updates to MMP220 & MMP219

Coordinated with PW implementation

RLPM Framework provides opportunities to enhance IPMP reset governance

(Plans, Archetype/ Tailoring)

Program transition will require L1 and key L2 document updates (post April 1 per RTX timeline)

RLPM P&WC Implementation team

PMMT: Paul Weedon Chair

Organization	PMMT Member
Strat. Planning & Business Devel.	Richa Gupta
Marketing	Nicolas Chabee
Engineering	Paul Weedon, Anthony Hyde
Operations	Nicholas Kanellias
Customer Service	John Lewis
Quality	Allan Christensen
Finance	Genevieve Coutu
DT	Elisa Plevano

PMT: Anthony Hyde Chair

Organization	PMT Member
Strat. Planning & Business Devel.	Ana Silva
Marketing	Melanie Walsh
Engineering	Anthony Hyde, Darragh McGrath, Francesco Finzi-Contini, David Tonks
Operations	Dominic Di Iorio
Customer Service	Anne-Marie Aliatas
Quality	David Ali, Lisa D'Angelo, Richard Benoit
Finance	Guillaume Couturier, Carl Desforges

IPT: Darragh McGrath Chair

Organization	IPT Member
Strat. Planning & Business Devel.	Ana Silva
Marketing	Jean-Baptiste Collin
Engineering	Darragh McGrath, Avrum Goldman
Operations	Anthony Scalia
Customer Service	Jean-Francois Arcand
Quality	Lisa D'Angelo
Finance	Melanie Filiatrault
Business Controls	Sylvain Lachapelle

Implementation team

SLT engagement through PMMT steering

MMP220 & MMP219 Leads

Collaborative effort - enterprise alignment weekly at PMT & PMMT level (Scrum approach)

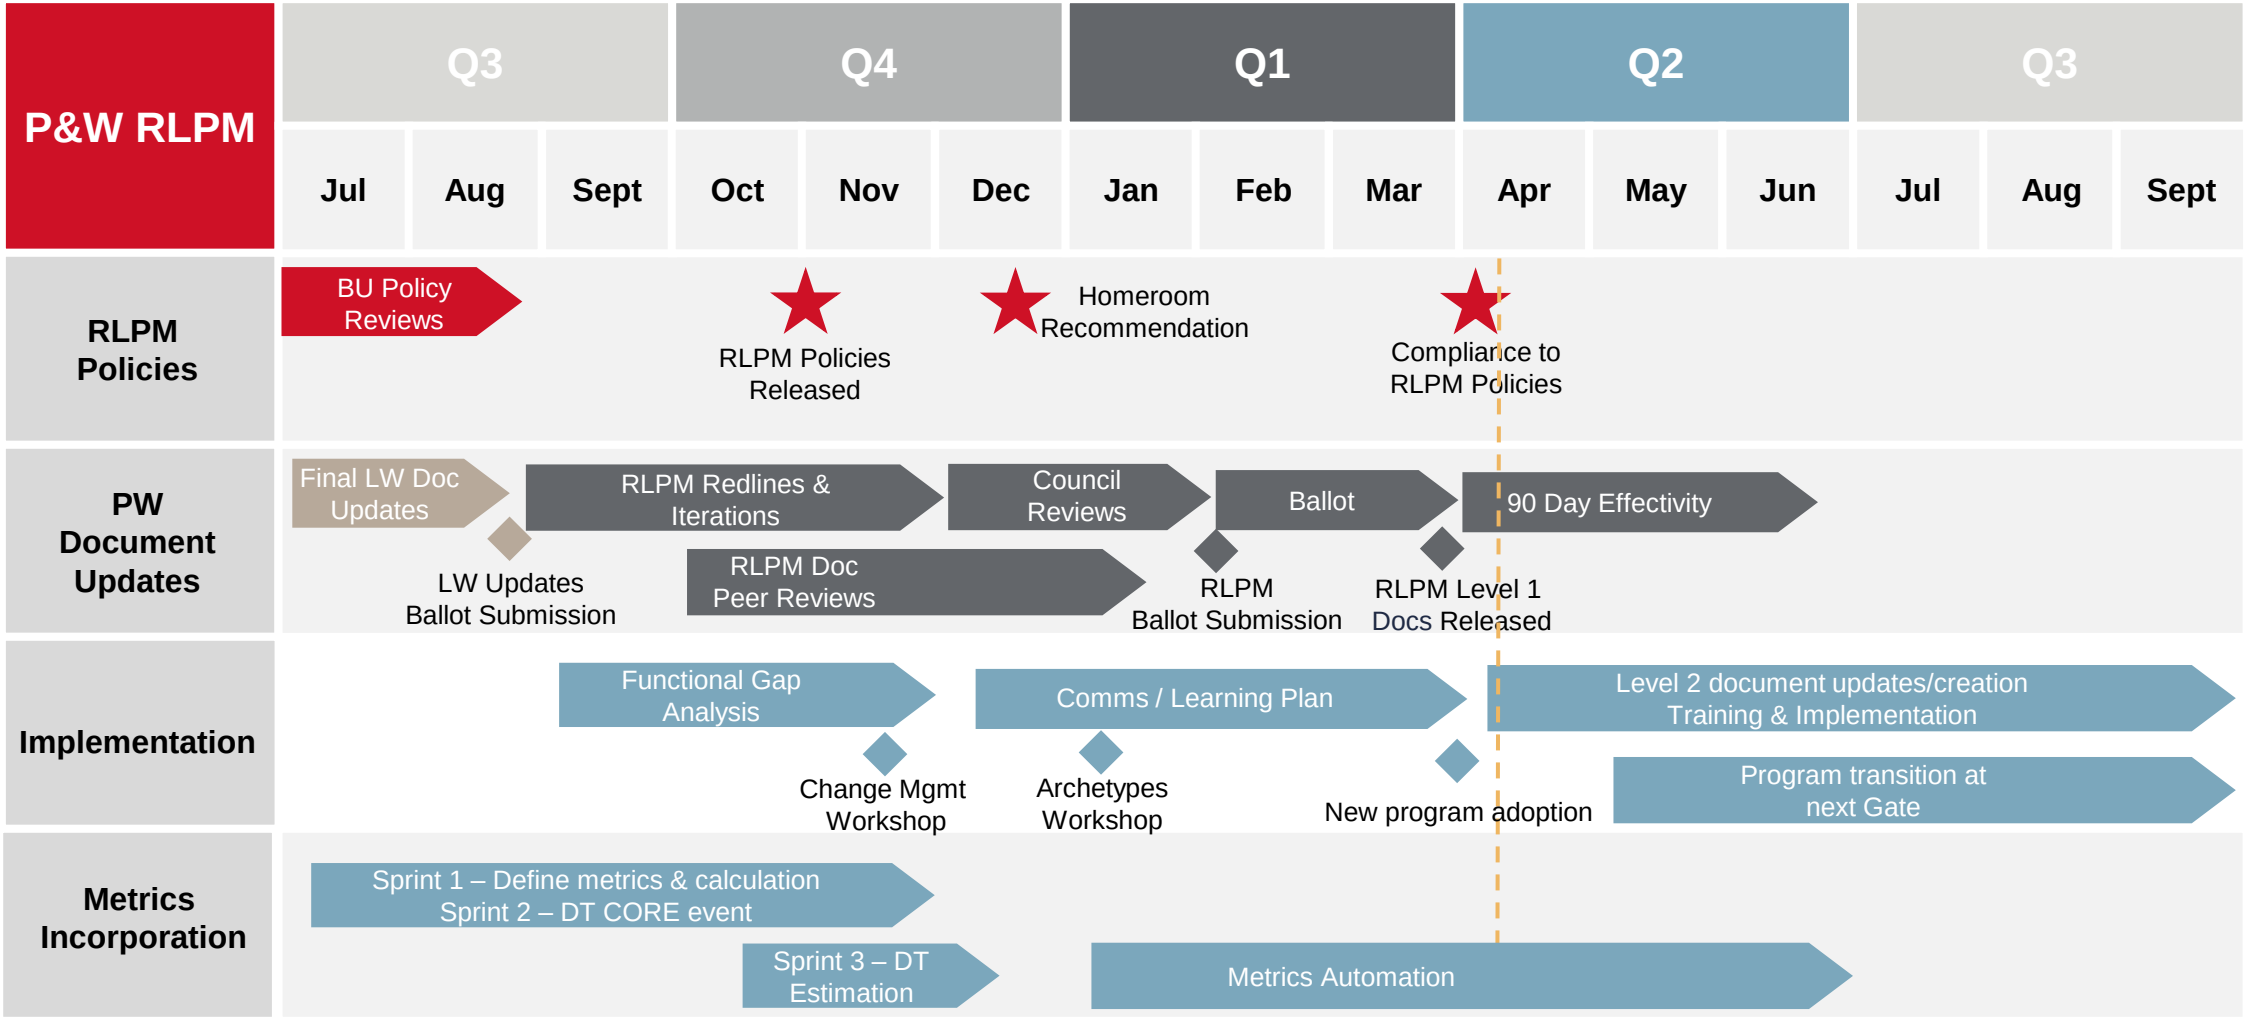
PMT weekly workshops to align on key updates

Single point of contact with PWA effort to ensure L1 alignment

Enterprise Fellows/SME review March 19 prior MMP Ballot (April 1)

Collaborative efforts across the business

RLPM Schedule



90-day effectivity after April 1 require to support program transition to new framework

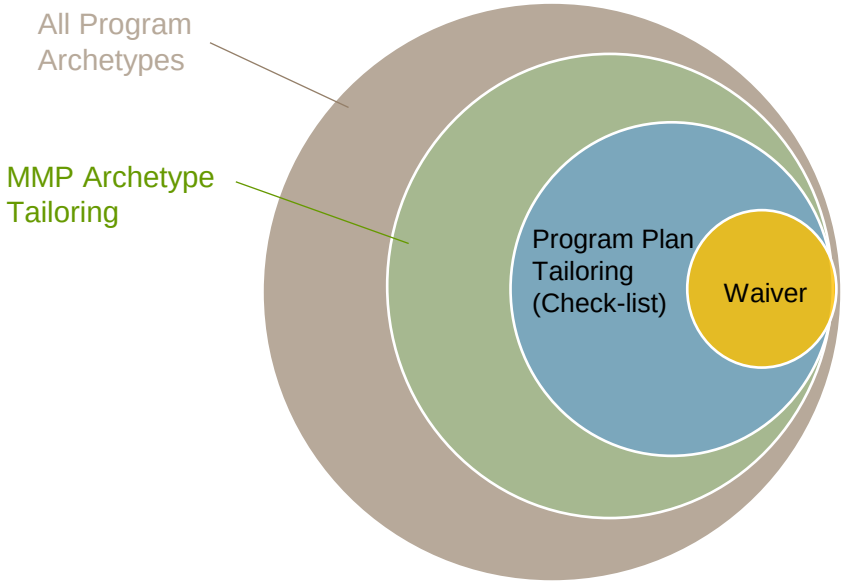
RLPM major changes

Key takeaway

Remains	P&WC IPMP Governance
	MMP 515 (AR) unchanged
	Gated Process
	Standardisation of templates and forms
	Waiver process
Changes	Plans; align & commit
	Archetypes Tailoring
	OVR formalised in MMP 444
	MRL & TRL Funded Maturation explicit plans
	Gate C – new *Early P2*
	Additional Gate – Discontinuity of Program
	Gate Trigger Criteria optimised

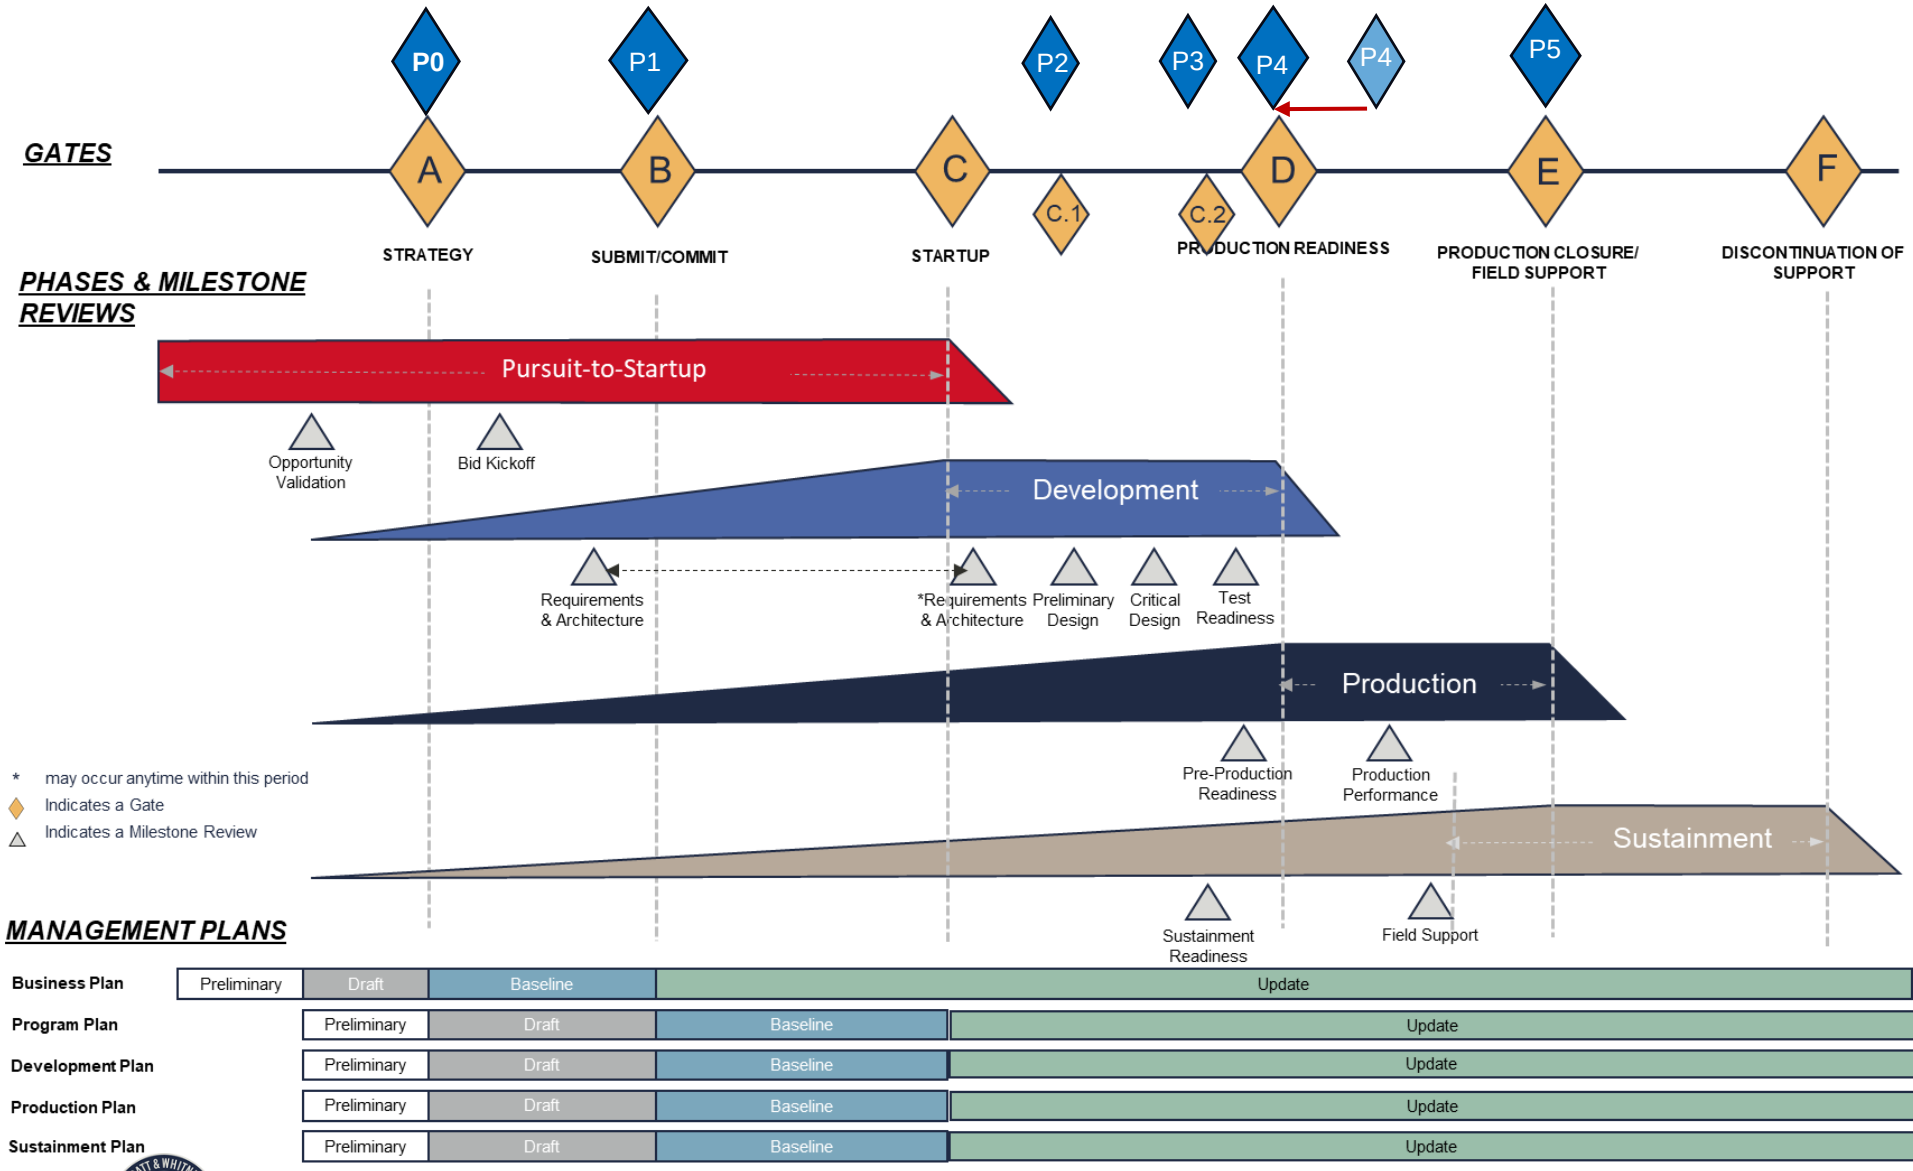
Nomenclature Cheat sheet

Current	Future
Passport	RLPM Process
Passport Office	RLPM Office
Passport	Gate
Trigger Passport	Delta Gate



RTX Proprietary
This document does not contain technology or technical data controlled under either the U.S. International Traffic in Arms Regulations or the U.S. Export Administration Regulations.

RLPM major changes



Nomenclature

Was 0 1 2
Now A B C

Framework

RTX - 6 formal Gates

MMP +2 sub-gates from C to D (PDR/CDR)

Gate C is effective new gate at Program launch

Tailoring concept

Plans

Templates in BU L2 docs

MMP Drives Plan accountability & PMMT Approval

- **Business Plan** – Marketing/SFV
- **Program Plan** – PMMT
- **Development Plan** – Engineering
- **Production Plan** – OPS
- **Sustainment Plan** – Aftermarket

RTX Corporation (Corporate) - Proprietary

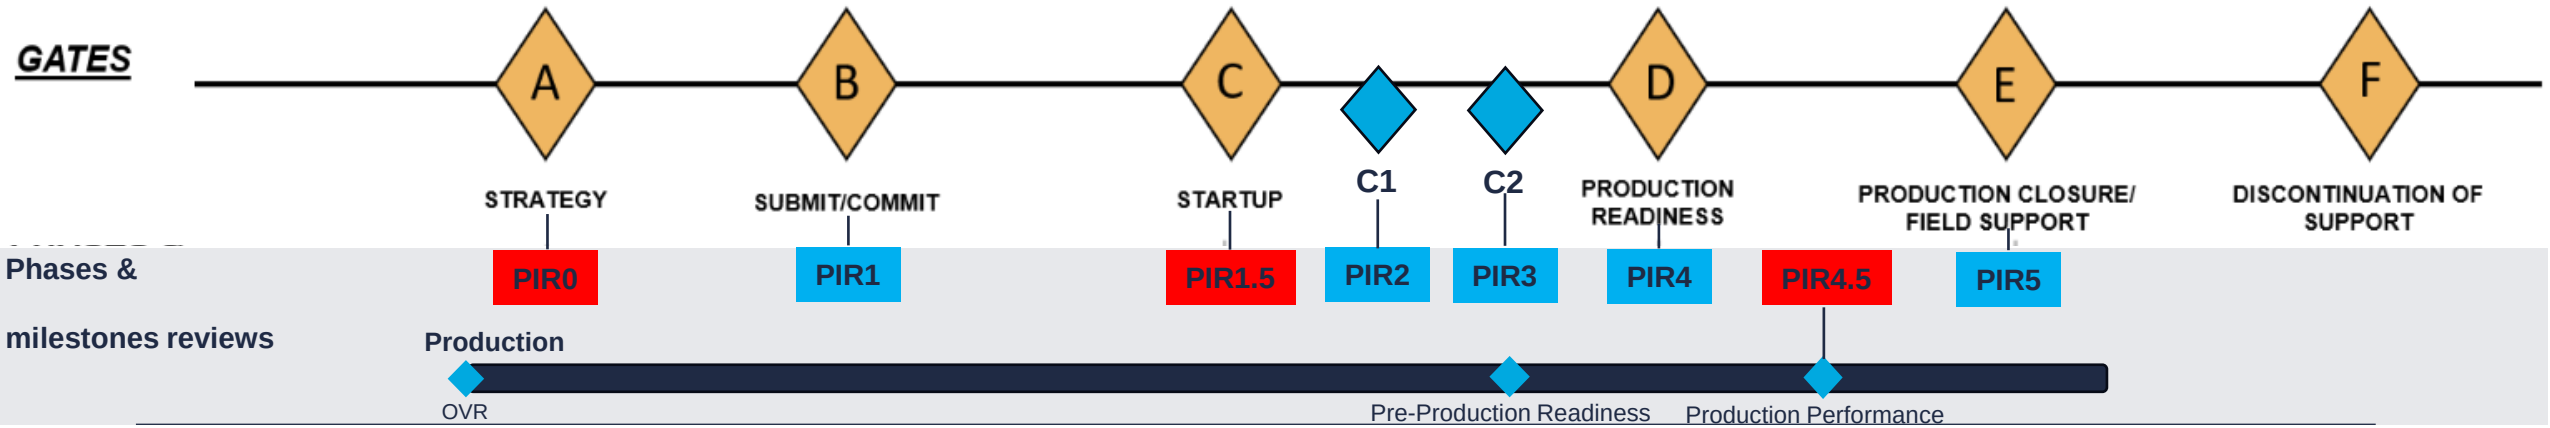
RLPM OVERVIEW-PRODUCTION



PURSUIT TO STARTUP

OVR Milestone - Funding, resource & schedule identified

Strategy - Prelim Production plan **(White paper),** Bid + DTUPC **(D2C)** targets

Submit - Draft Production plan (KPI's/PSSRB) /Funded MRL maturation plan

Start-up - Approved baseline plan, draft MRL 6 maturation plan

DEVELOPMENT

Entry Criteria - Proposed MRL6 maturation plan by CDR **(OPS PDRS)**

Product cost model, Design to unit production cost targets or **Design to cost targets**

Baseline **Sourcing Strategy**/Facility assessment with requirements & plan

Exit Criteria - **Achieve** MRL8

Conversion of EBOM to MBOM ,production sources identified with **approved rate plans**

Achieved production unit costs or cost reduction plan established & **funded**

PRODUCTION

Entry Criteria - **Completion** of Qualification testing, design for manufacturing/assembly, PPAP requirements

Meet producibility requirements **(QN/LI)** Product cost model **aligned** to design cost **targets** & yield

Resource/Tooling/Equipment per plan **(in place), Completion** of customer support strategy

Released Technical /Manufacturing data packages, **Achievement** of TRL/MRL 9

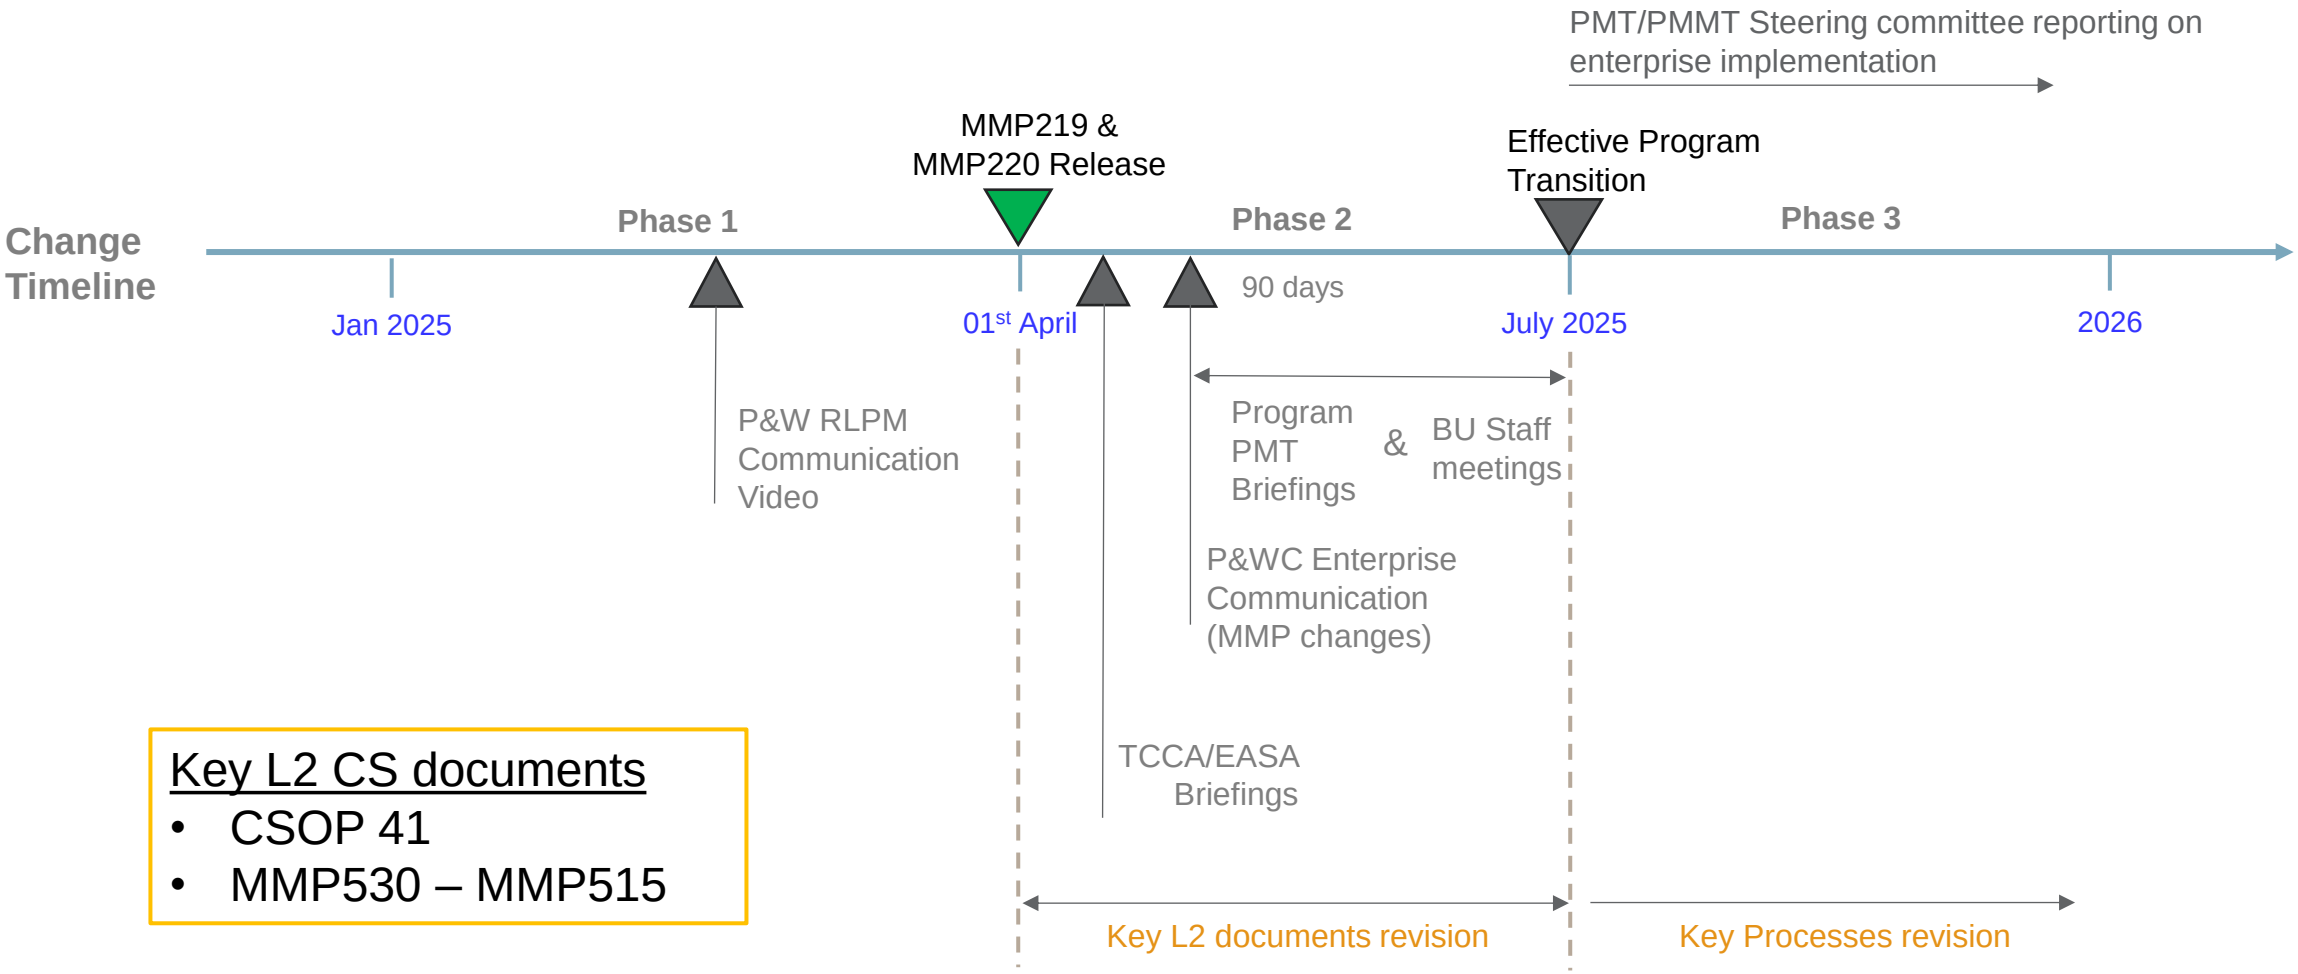
Exit Criteria - Performance AAR review to capture **Initial** production **Lessons Learned**

Completion of APQP/PPAP elements, product/process capability validation **(Demonstrated rate readiness or approved funding)**

Documented Manufacturing risks & funding plan.

Update Sustainment plan, **Preliminary** production discontinuation strategy

Change Management & Communication plan



Key L2 CS documents

- CSOP 41
- MMP530 – MMP515

RTX Proprietary
This document does not contain technology or technical data controlled under either the U.S. International Traffic in Arms Regulations or the U.S. Export Administration Regulations.

Next Steps-PW Workshop Mandate

RLPM Workshop-Focus Areas

Process

- MRL Definitions and Overlays in gated passport review process
- Baseline criteria used to transition a program from NPI to Legacy
- MRL deliverables assessment at each passport (Legacy vs NPI)
- KPIs at each MRL level
- MCPL selection process/criteria/applicability and funding process
- Risk assessment/management and communication at a program risk cube level
- COPQ management and Producibility challenges
- NPI vs Legacy – QIP vs Legacy
- PPAP differences between PWA and PWC

People / Roles

- Roles and Responsibilities of MRL Process Governance, MRL Project Management, Chief Manufacturing Engineers, Program Manufacturing Engineers

Tools / Systems

- Assessing and assigning Problem-Solving Tools (21) to MCPL
- Benchmark tools with the respective functional owners/users
- Dashboards (Control Tower) / Passport Review Presentation templates
